A proud owner of one of these sheds is John Skretowicz...

MY SHED is looking beautiful (it really go well with my eyes) and it is slowly starting to fill up. It now

baby sits my mower, brushcutter, blower and chainsaw and the wheelbarrow and now the good wife wants a cupboard in MY SHED so she can put her jars in there. She should get a shed of her own and make it a girlie shed. (She's got blue eyes ..I wonder what colour shed she would get?)

Cheers,

John

To All Staff

I am impressed, with your Customer Service, from the time of purchase to delivery, most professional.

We will not be erecting until after Christmas, but my nephew will be looking forward to using it.

The little things like the ebooks on looking after lawns is very helpful.

We wish a Merry Christmas and a very good New Year to you all.

Once again, your professional customer services is of the highest standards.

Regards

Don't Miss Out!!!

Our EasySHED garden sheds represent a fantastic value Australian made range of garden sheds.

The 3m x 3m is one of the most popular without a doubt. They are big enough to store all your gardening equipment (including larger machinery such as ride on mower) but still fit comfortably in most suburban backyards.

They are also a popular option as a smaller workshop. There are amazing possibilities to customise your shed and add a wide range of accessories.

You can increase the standard 1.8m **wall height to 1.98m or even to 2.1m** but this is just the beginning. You can change the hinged doors to sliding doors, add louvre window, skylight, shelving, tool holders and the list goes on.

This product comes with **20 year written warranty**.
